**OFFICE OF PETITIONS**

In re Application of :  
Doms et al. : DECISION ON APPLICATION  
Application No. 10/032,311 : FOR  
Filed: December 21, 2001 : PATENT TERM ADJUSTMENT  
Attorney Docket No. 130694.05811 :

This is a decision on the REQUEST FOR CORRECTION OF PATENT TERM ADJUSTMENT UNDER 37 C.F.R. § 1.705(d) filed March 9, 2010, which is properly treated as a petition under 37 CFR 1.705(b). Applicants request correction of the patent term adjustment from four hundred seven (407) days to at least six hundred eighty-seven (687) days partly on the basis of the Office taking in excess of three years to issue the patent.

The request for reconsideration of the patent term adjustment is **GRANTED** to the extent indicated herein.

The Office has updated the PALM and PAIR screens to reflect that the patent term adjustment determination at the time of the mailing of the notice of allowance is **four hundred thirty-six (436) days**. A copy of the updated PALM screen, showing the corrected determination, is enclosed.

To the extent that the instant application for patent term adjustment requests reconsideration of the patent term adjustment as it relates to the Office's failure to issue the patent within three years of the filing date, the application for patent term adjustment under 37 CFR 1.705(b) is **DISMISSED as PREMATURE**.

Knowledge of the actual date the patent issues is required to calculate the amount, if any, of additional patent term patentee is entitled to for Office failure to issue the patent within three years. See § 1.702(b). (This is true even where a request for continued examination (RCE) was filed). The computer will not undertake the § 1.702(b) calculation until the actual date of issuance of the patent has been determined. Likewise, the computer will not calculate any further Office delay under § 1.702(a)(4) or applicant delay under § 1.704(c)(10) until the actual date of issuance of the patent has been determined. As such, the Office can not make a determination on the correctness of the patent term adjustment until the patent has issued.

Requesting reconsideration of the patent term adjustment to be indicated on the patent under 37 CFR 1.705(b) based on the initial determination of patent term adjustment and a projected issuance date of the patent (or even the filing date of the request for continued examination) is premature. Accordingly, it is appropriate to dismiss as premature such a request.

Rather than file an application for patent term adjustment under 37 CFR 1.705(b) contesting the 37 CFR 1.702(b) calculation at the time of the mailing of the notice of allowance, applicant is advised that they may wait until the time of the issuance of the patent and file a request for reconsideration of the patent term adjustment pursuant to 37 CFR 1.705(d). As the USPTO does not calculate the amount of time earned pursuant to 37 CFR 1.702(b) until the time of the issuance of the patent, the Office will consider any request for reconsideration of the patent term adjustment due to an error in the calculation of 37 CFR 1.702(b) to be timely if the request for reconsideration is filed within two months of the issuance of the patent. However, as to all other bases for contesting the initial determination of patent term adjustment received with the notice of allowance, applicant must timely file an application for patent term adjustment prior to the payment of the issue fee<sup>1</sup>.

---

<sup>1</sup> For example, if applicant disputes both the calculation of patent term adjustment under 37 CFR 1.702(a)(1) for Office failure to mail a first Office action or notice of allowance not later than fourteen months after the date on which the application was filed and under 37 CFR 1.702(b) for Office failure to issue a patent within three years of the actual filing date of the application, then applicant must still timely file an application for patent term adjustment prior to the payment of the issue fee to contest the calculation of Office delay in issuing a first Office action or notice of allowance. See 37 CFR 1.705(b) and 35 U.S.C. 154(b)(3)(B). A dispute as to

On December 10, 2009, the Office mailed the Determination of Patent Term Adjustment under 35 U.S.C. 154(b) in the above-identified application. The Notice stated that the patent term adjustment to date is 407 days.

Applicants dispute the 29 days of reduction, pursuant to 37 CFR 1.704(c)(8), for the filing of the Supplemental Response on July 20, 2006. Applicants assert that during a telephonic interview with the Examiner on July 6, 2006, the Examiner expressly requested that applicants submit the Supplemental Reply of July 20, 2006.

Pursuant to 37 CFR 1.704(c)(8):

Submission of a supplemental reply or other paper, other than a supplemental reply or other paper expressly requested by the examiner, after a reply has been filed, in which case the period of adjustment set forth in § 1.703 shall be reduced by the number of days, if any, beginning on the day after the date the initial reply was filed and ending on the date that the supplemental reply or other such paper was filed[.]

It is undisputed that after filing an initial reply on June 21, 2006, applicants filed a Supplemental Reply on July 20, 2006. Nevertheless, the record supports a conclusion that the Examiner expressly requested the filing of the Supplemental Reply. Accordingly, the period of reduction of 29 days is unwarranted and will be removed.

In view thereof, the patent term adjustment determination at the time of the mailing of the notice of allowance is **four hundred thirty-six days (436) days** (639 days of Office delay - 203 days of applicant delay).

The Office acknowledges submission of the \$200.00 fee set forth in 37 CFR 1.18(e). No additional fee is required.

The Office of Data Management has been advised of this decision. This matter is being referred to the Office of Data Management for issuance of the patent.

---

the calculation of the § 1.702(a)(1) period raised on request for reconsideration of patent term adjustment under 37 CFR 1.705(d) will be dismissed as untimely filed.

Telephone inquiries specific to this matter should be directed to the undersigned at (571) 272-3211.
